

Nutrislim

Product catalogue 2021

We are all about healthy
and nutritious products!

OUR MISSION

Healthy soil, Healthy food, Healthy people = Healthy Planet! From soil, to harvest, to processing, shipping and storage, we strive to provide only the finest, purest, most ethical foods on earth. Our products are pristine, nutritionally rich and carefully selected from our ever-growing network of reputable manufacturers and processors around the world.

TRUE QUALITY

No artificial flavourings, colourings, preservatives or pesticides. GMO free! Our products are packed at the Nutrislim organic factory in Slovenia, in accordance with HACCP standards and without the use of genetically modified organisms (GMO). This is guaranteed by the EKO-SI certificate. Quality, food safety and customer satisfaction are the key points of our quality policy. We guarantee that our products comply with the latest food standards, are fully traceable and packed with goodness - just healthy and delicious.

PREMIUM INGREDIENTS

We source globally and directly from the farmers! Our products are carefully selected and come only from the tested premium quality. Ingredients are grown in the traditional way without any added additives or any unnecessary industrial process in order to maintain their nutritional composition intact. By purchasing our products directly, we support small family farmers and indigenous communities around the world. Wherever possible, we connect directly with our sources to ensure fair labour practices and to assist in the development of processing at the source.

ECO - FRIENDLY COMPANY

Passionately serve our customers with the highest quality and safest organic products from family farmers around the world. Directly partner with people that share our commitment to sustainability, fair trade and biodiversity. Our commitment to sustainability doesn't end once we source our products. From our facilities to our packaging, we continually push the boundaries to ensure the most ecologically materials and processes possible.

HOW WE CONTRIBUTE

Because we care about our planet! We work with the largest environmental network in Europe "Friends of the Earth" and support them with donations to fight the environmental and social issues.

Supreme CBD

the purest cannabidiol

CBD DROPS 5% (500 mg)

Comes in 10 ml glass bottles with pipettes. It is made from CO2 extracted industrial hemp resin (*Cannabis sativa L.*) diluted in olive oil (*Olea europaea*).

**SUPERCritical
CO2 FLUID
EXTRACTION**

CBD DROPS 10% (1000 mg)

Contains verified CO2 extracted Cannabis resin from selected organic farms in the subalpine region of Slovenia and Pannonian hills of Croatia.

**FULL RANGE
CANNABINOIDS**

What makes our CBD supreme?

We make no compromises when it comes to quality. This begins by selecting local, European certified seeds. Because we have plenty of experience, we can choose the perfect strain for certain formulations with the proper CBD percentage and cannabinoid ratio. Our environmental awareness and natural resources give us an advantage in producing allnatural raw industrial hemp free of pesticides, herbicides, fungicides and heavy metals. To achieve this, we harvest our hemp only on specially selected days. Like in the past, all our crops are harvested by hand. Each flower is separated from the stalk by hand, which also means we can make a selection and pick only premium flowers. To safeguard the potency of our hemp, we let it dry naturally, always at temperatures below 35°C. The dried material is then pressed into pellets that contain a special NUTRISSLIM blend of three authentic European industrial hemp varieties, rich in active cannabinoids.

POWERFUL YET GENTLE. EXTRACTION GIVES THE PUREST CBD OIL.

Sophisticated plant extraction is crucial for obtaining the highest quality oil, free from solvent residue and toxins. We trust the supercritical CO2 method, which uses high pressures and low temperatures, to precisely extract and protect the CBD and other cannabinoids. Beneficial molecules, often lost in other methods, are preserved and the result is a pure, potent and natural extract. To meet our high quality standards, we collaborate with the most qualified and best equipped analytical laboratories that test and monitor every stage of our production and the final product.

All our products undergo continuous and rigorous quality assurance with verification as well as short and long-term stability checks. This ensures the consistency of our products and the GMP status of our production.

NUTRISSLIM brings together state-of-the art extraction facilities and nature's own CO2 molecule to produce the highest quality industrial hemp extract. NUTRISSLIM works closely with specialised laboratories that subject all its products to strict tests for impurities and toxicants, verifying the superiority of NUTRISSLIM on the CBD market.

RICED DRINKS

Bio Rice Drink & Calcium

Rice Drink with Calcium is a natural milk alternative made from rice so it is suitable for those suffering from lactose intolerance as well as vegans. Thanks to added calcified marine algae, Lithothamnium, the drink is also enriched with calcium.

Bio Rice Drink & Cacao

The ideal non-dairy alternative for regular chocolate milk. With added 100% organically grown, raw cacao from Peru. Both children and adults can enjoy this delicious chocolate drink without hesitation as its sweet taste comes only from coconut sugar.

Bio Rice Drink & Almond

Wholesome and tasteful flavour from mediterranean almonds meet natural sweetness of rice – a subtle nutty note you cannot forget. Packed with essential amino acids, fibres and calcium they are especially important for the muscles, bones and cells in your body.

Are you looking for a healthy, vegan and tasty alternative to cow's milk?

Organic, plant-based, non-dairy milk alternative is a much healthier and increasingly popular substitute. It is a perfect solution for people with various allergies or lactose intolerance, vegans, vegetarians and everybody living a healthy lifestyle. Products come in the form of powder, which means drinks can always be freshly prepared and with incredible natural taste. They benefit also from longer shelf life which is a great advantage for the consumer.

Bio Rice Drink Cacao & Vanilla

For a quick and simple preparation of a delicious chocolate drink with a scent of vanilla. Cocoa is renowned as a great antioxidant, while vanilla calms and beneficially affects the heart by helping to reduce cholesterol level.

Bio Rice Drink & Coconut

With the sweet taste of rice and the captivating taste of coconuts harmoniously combined. Enjoy it straight from a glass or mix it in a smoothie or a porridge for a luxurious breakfast. Refreshing enjoyment at its very best.

You can prepare
up to 2.5 L of drink
with 250 G.

Bio Rice Drink

Organic rice drink powder with no added sugar. A much healthier and increasingly popular substitute for dairy products. It is a perfect solution for people with lactose intolerance and various allergies, while being very simple to use and store.

**CHOCOLATE CHIP

/ HIGH IN PROTEIN

CACAO & COCONUT Peanut Butter

A combination of chocolate, raw cacao and crunchy coconut pieces - awesome!

ORGANIC / VEGAN / NO REFINED SUGAR
/ HIGH IN PROTEIN

WE LOVE VITAMINS

Taking your vitamins shouldn't be such a pill!

According to a recent study, 40% of the population has a hard time swallowing pills. The study reported that people find swallowing pills so difficult that many delay, skip, or discontinue taking their supplements. Additionally, individuals with specific conditions such as irritable bowel syndrome, hiatal hernias, diverticulitis, and those who have undergone bariatric surgery also have particular difficulty when taking their supplements in a pill or capsule form.

Toss tablets! Use a powder!

In order for your body to utilize vitamins and minerals they must be released into the body in a timely manner — meaning a bioavailable (absorbable) powder is disintegrated quicker and more efficiently. Vitamins, minerals and important nutrients taken from natural environment ensure fast and reliable effects. Easy to digest formulations are gentle to your liver and stomach while being vegan friendly at the same time.

This is what good nutrition feels like!

With science behind us and advanced research at our fingertips, we have created powerful combinations of vitamins, minerals and important nutrients, just as Mother Nature created them.

VITAMIN C

1,000 mg Vitamin C Drink Mix

Vitamin C is a very important antioxidant and immune booster. It is especially important for sportsmen, since it helps to maintain the normal function of immune system; also during and after intense physical exercise.

100% NATURAL / VEGAN / SUGAR FREE

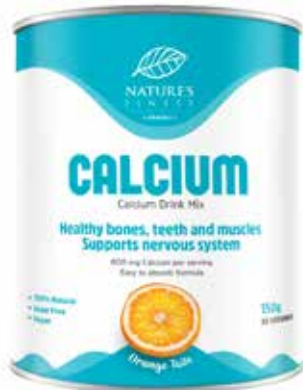

CALCIUM

800 mg Calcium Drink Mix

Calcium is a mineral represented in bones and teeth. It is also important for normal muscle and nerve function.

100% NATURAL / VEGAN / SUGAR FREE

B-COMPLEX

50 mg B-Complex Drink Mix

Vitamins of B group are water soluble vitamins, that play different roles in our body. However, their mutual "goal" is maintenance of normal function of nervous system.

100% VEGAN / SUGAR FREE

THYRO ID

Thyroid Drink mix 150 g

Thyroid is a lemon-flavored beverage that supports and regulates thyroid function. Iodine and selenium are minerals that contribute to the normal functioning of the thyroid. L-tyrosine is an amino acid, which is important for the construction of thyroid hormones. Ashwagandha is an adaptogenic herb that helps us protect against stress and lower the level of the cortisol hormone in the blood.

100% NATURAL / VEGAN / RAW

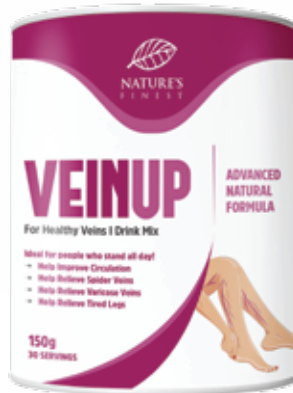

VEIN UP

VeinUp Drink mix 150 g

Vein up is an orange-flavored beverage that provides beautiful legs without blood vessels. The active ingredients provide healthy vessels that do not crack. The extract of Gotu kola helps to maintain the venous circulation, which is crucial for healthy veins. C vitamin helps normal functioning blood vessels because it is important for the construction of collagen, which is a very important ingredient in the blood vessels because it gives them flexibility. Flexibility of veins is an important factor in the health of blood vessels, since the resilient veins bear a higher pressure and do not burst so fast.

VEGAN / NATURAL

VITAMIN D3

Vitamin D 60 capsules

Vitamin D, also called sun vitamin, is a fat soluble vitamin that, together with parathyroid hormone (PTH), regulates plasma Ca²⁺ levels. Due to its steroidal structure and mode of action, Vitamin D is considered a prohormone with various active metabolites that act as hormones. Vitamin D deficiency is shown as rickets. With enough sun exposure, vitamin D is synthesized in the skin from provitamin D. During the winter months, when the skin's exposure to the sun is insufficient, vitamin D supplementation with dietary supplements is required due to its lack.

VEGAN / RAW / NATURAL

Herbal super drinks

POWDER MIXES

Packed with full of naturally occurring antioxidants, digestive enzymes, omegas, minerals, proteins, phytonutrients, organic whole grains, multi mineral complexes and bursting with prebiotics and probiotics, these blends are made from 100% pure, vegan, organic and raw super foods. Protein blend made entirely from plant based proteins. For great taste sweetened with erythritol and stevia. Suitable for all people with sweet tooth which refuse to eat extra calories.

COLLAGEN FUNCTIONAL POWDERS

For flexible joints or beautiful skin, hair and nails.

Collagen is protein, that is the most common in human body. We find it in almost all tissues, especially skin, nails, hair, bones and cartilage. After twenty years of age, collagen synthesis is slower than its degradation, which leads to lose skin, appearance of first wrinkles, fragile hair and nails, and decreased movement abilities. Hydrolysed collagen are small peptide parts of collagen, which are easily absorbed by the body.

Collagen is very important part of connecting tissue, which provides tendons and ligaments with strength and skin with elasticity. It often works in conjunction with other proteins, for example keratin and elastin.

Collagen production slows down after the age of 20, so degradation of collagen soon becomes faster than it's synthesis. Therefore, the content of collagen in body can be decreased by 30% already by the age of 45, which leads to visible aging signs, such as loose skin, appearance of wrinkles, fragile hair and nails, and decreased movement abilities...

Since natural collagen synthesis is significantly reduced already in early adult era, it is important to give it a boost in order to stay youthful. As a supplement, collagen is the best to consume in hydrolysed form, since hydrolysed collagen is reduced into small peptides, that are easily absorbed by the body.

100% Pure Collagen

For beautiful skin, hair and nails!

Natural and 100% pure hydrolysed collagen peptides which are easily absorbed by the body.

Skin Care Collagen

Reduces wrinkles and improves skin elasticity!
Fruity taste!

With premium fish collagen Naticol®, MSM and superfoods beneficial for skin health. Also, skin complexion homogeneity and radiance improve after consumption of 2.5 g of Naticol per day for 8 weeks.

Joint Care Collagen

Advanced Joint formula with measurable recovery results! Fruity taste.

With four active ingredients and patented collagen Fortigel®, MSM, rosehip and camu camu. Clinical studies have showed that consumption of Fortigel results in improvement mobility of joints in healthy individuals. Fortigel collagen peptides can have an influence on cartilage tissue regeneration. Daily intake of 5 g of Fortigel has a beneficial impact on physical function of joints, accompanied with significant reduction of stiffness and pain relief after just three weeks. Rosehip helps to increase joint mobility.

.....

SLIMMING WITH A LITTLE HELP OF DETOX

.....

We believe in a healthy lifestyle and that is why we brought you our very special and natural range of detox teas to help you keep energised and promote healthy weight loss. Being healthy, staying healthy is our goal and it is also our aim to help you be this way with a large dose of happiness!

DAYTIME

DETOX TEA is designed to fill you with energy and helps in metabolic functions. It is a great alternative to the morning coffee.

What is inside and how does it work?

- Oolong tea is a type of green tea.
- Mate tea invigorates and helps to contribute to tiredness. It stimulates metabolism of fats and helps to regulate body weight.
- Ginger helps to maintain the body's immune resistance. It helps to maintain healthy blood sugar levels and contributes to the normal functioning of digestion.
- Fennel seeds are known for their effect to prevent belly bloating.
- Lemongrass is an aromatic citrus-like flavored plant.
- Dandelion leaf helps to stimulate digestion and helps to maintain the pH balance in the stomach.
- Ginseng helps to maintain vitality and vigilance. Besides that, it helps to maintain normal glucose levels.

BEDTIME

DETOX TEA is designed to contribute to the purification of the body causing the reduced flatulence possibility. It is perfect before bedtime since it relaxes and contributes to quiet sleep.

What is inside and how does it work?

- Lotus leaves have been used for years in tea blends.
- Peppermint leaves contribute to the optimal relaxation of the body, contribute to quiet sleep and support the immune system.
- Fenugreek seeds cleanse the intestines and are responsible for our digestive system. They regulate appetite and help in weight loss.
- Liquorice root helps to maintain energy levels and helps to support digestion and weight loss.
- Burdock root helps to control blood sugar concentrations and supports digestion.
- Hawthorn fruit contributes to better sleep and decreases irritability.

Slimming

WITH A LITTLE HELP OF **HERBAL SUPERFOODS**

Comprehensive weight-loss program supported with a meal plan.
Formulation of active ingredients which stimulates metabolism, help to improve digestion and reduce the appetite. They are 100 % natural and most of them also organically grown ingredients with a synergistic action.

SPEED UP METABOLISM

Supports metabolism and fat oxidation!

Active ingredients: Alfalfa is plant rich in with vitamins and minerals, and contributes to glucose metabolism. Hemp proteins represent a rich source of protein and unsaturated fatty acids. Proteins contribute to increasing and maintaining muscle mass. The substitution of saturated fats with unsaturated fats in nutrition contributes to the maintenance of normal blood cholesterol level. Cinnamon helps to maintain a healthy blood sugar level and a healthy body weight. It raises the level of energy and prevents mental and physical tiredness. Green tea is very popular spice and is often added to different spice mixtures and teas. Ginger helps to maintain healthy blood sugar level, contributes to the normal functioning of the digestion and contributes to the physical well-being. Guarana is used to help with weight control because it contributes to metabolism of fats. Besides that, it strengthens the immune system.

SUPERFOODS

Super food is food which is extremely rich in nutritional value. Well, more like food it is used as food supplement. The simplest way it can be defined as a food with a high content of health beneficial substances such as antioxidants, minerals, vitamins, essential fatty acids and proteins. Most of these nutrients work as antioxidants on our body, which means that they bind harmful free radicals and eliminate them from the human body. To preserve superfood's nutritional integrity, they must be minimally-processed, using traditional methods or low-temperature technologies.

Acai

Have more antioxidants than any other fruit on the world. Organic acai powder (freeze-dried) is made from acai berries that grows only in the Brazilian Amazon and on Colombia's Pacific Coast; super fruits with tremendous health benefits.

Acerola

Acerola powder is derived from the acerola cherry, one of nature's highest sources of vitamin C. Originally from Central America, the Acerola fruit change their color during ripening from green to yellow, to dark red.

Alfalfa Leaf

Alfalfa powder is made from fresh, green, vigorously growing plants of Medicago sativa and contains no additives or artificial colours. Alfalfa seeds have been used as an herbal medicine for over 1,500 years. Alfalfa seeds are high in protein, calcium, plus other minerals, vitamin A, vitamins in the B group, vitamin C, vitamin D, vitamin E, and vitamin K.

Ashwagandha

Ashwagandha, one of the most vital herbs in Ayurvedic healing, has been used since ancient times for a wide variety of conditions, but is most well known for its restorative benefits. In Sanskrit ashwagandha means "the smell of a horse," indicating that the herb imparts the vigour and strength of a stallion.

Atractylodes

Mainly found in central China, and has been used as medicinal herb in Chinese Herbal Medicine for thousands of years. Its Chinese name is Geng Shu. Traditional Chinese Medicine believes it acts primarily on the digestive system, so mainly use it to treat indigestion, stomachache, bloating, fluid retention, diarrhea, loss of appetite and allergies to dust mites.

Astragalus

Astragalus appears to work by stimulating the immune system. It has antioxidant effects that inhibit free radical production. In the body, free radicals damage cells and are linked to many health problems associated with aging.

Kelp

Kelp (Kombu) are large seaweeds which grow in nutrient-rich underwater in shallow oceans. It is rich in minerals such as calcium, magnesium, and iron etc. Kelp is also famous for its rich content of iodine, which is an important element keeping our thyroid working properly.

Lucuma

Organic lucuma powder is a natural sweetener prepared from the delicious Peruvian lucuma fruit. It contains a variety of nutrients, including vitamins, minerals and fibre and makes a delicious addition to shakes, smoothies and protein drinks and is an ideal sugar substitute in desserts and cakes.

Baobab Fruit

Baobab fruit powder is a powerful new superfood and Africa's best-kept secret until now. It's known as the "Tree of Life" and has been cherished by locals across the African continent for centuries. It has a unique nutritional profile, with more Vitamin C than oranges, more iron than red meat and a rich content of alkalising minerals: calcium, potassium and magnesium.

SUPERFOODS

SUPERFOODS

Maca

An energising and revitalising superfood of the Incas. Jam packed with vitamins, minerals, enzymes and all the essential amino acids. Grown at 4,000m above sea level in the Andean district of Junin by the Pumpush people who have been cultivating and consuming Maca as a staple food for thousands of years.

Macaccino Drink

Macaccino is a delicious superfood coffee substitute made from Certified Organic Cacao Powder, Maca Root and Coconut Palm Sugar. This incredible blend combines 3 powerful antioxidant rich superfoods into a nutritious, uplifting beverage. This is a healthy and energizing replacement for high caffeine coffee and tea.

Maitake

Maitake (*Grifola frondosa*) is a polypore mushroom that grows in clusters at the base of trees, particularly oaks. In Japanese, it means "dancing mushroom". Long time ago in Japan, the wild-crafted maitake mushroom was treated as precious thing, and could be exchanged for equal amount of silver.

Gotu Kola

Gotu kola is revered in traditional Ayurvedic and Chinese medicine, and has long been used to promote relaxation and meditation. Ground from the dried herb *Centella asiatica*, this powder can easily be mixed with drinks or food to experience incredible health benefits.

Guarana

Guarana is a popular native plant in the Amazon rain forest in Brazil. Guarana seeds and its powder are similar to caffeine chemically. It increases concentration, enable us to keep a clear head, and ease mental boredom. When mixed with coffee guarana can increase the effect of the caffeine, thus giving us extra energy

He Shou Wu

He Shou Wu is also known as Foti root or Fo-ti-teng. It is recognised as one of the most amazing longevity tonics of all time. It is widely used in Chinese herbal medicine to increase energy and restore a youthful condition to the body. He Shou Wu is extremely rich in essential trace minerals zinc and iron and other rare elements and is a potent antioxidant.

Hemp Protein

Hemp protein powder comes from hemp seeds. It possesses all benefits of hemp seeds, in addition, it has very high content of protein (about 50%), which is very easy for our bodies to digest. Our hemp protein powder is completely free of gluten and an optimal ratio between omega 6 to 3 essential fatty acids. It is full of vitamins, enzymes, and minerals.

Hemp Seeds

Hemp seeds are full of vitamins, enzymes, and minerals. They possess an optimum balance of the essential fatty acids Omega-3 and Omega-6.

Himalayan Salt

Himalayan Crystal Salt comes from Himalayan primal seas since the beginning of lives. At that time, there was no pollution, and it was sun-dried naturally. In contrast to the conventional sea salt, Himalayan salt is not refined and does not contain any additives.

Barley Grass

Barley Grass is one of the earliest cultivated foods on the planet, apparently eaten by gladiators for strength and stamina. A natural 'superfood', barley grass is a rich and balanced source of vitamins, minerals, amino acids and enzymes.

Brahmi

Brahmi works as a nerve tonic, digestive aid and in promoting optimal brain function. Ayurvedic practitioners use the leaves and stems from the Brahmi plant to create this herbal remedy.

Inca Berry

Prized since ancient times, Inca berries are a delicious superfruit with high levels of phosphorus, vitamin A, vitamin C, vitamin B12 and protein. Inca berries also have high levels of bioflavonoids. These little golden berries are frequently enjoyed by vegans, vegetarians and others looking for a delicious and nutritious treat.

Gynostemma

Gynostemma, also known as jiaogulan in Chinese (means "twisting-vine orchid") is an herbaceous vine indigenous to China, Vietnam, Korea, and Japan. Gynostemma is best known as an herb having powerful antioxidant and adaptogenic effects.

Chaga

One of the most important anti-aging supplements yet discovered. Like all medicinal mushrooms Chaga contains the beta glucan rich polysaccharides that give medicinal mushroom extracts their potent immune supporting properties. magnesium.

Catuaba

Catuaba is a powerful nutrient that has been used for centuries for its impressive physiological and psychological benefits. First discovered by the Brazilian Tupi Indians, the bark is derived from the Catuaba tree, a small, fast-growing tree with orange and yellow flowers and non-edible fruit.

SUPERFOODS

Matcha

Matcha is green tea of the best quality. It is a powder from dried green tea leaves, which are grown in shade, and before processing veins are removed.

Bee Pollen

Bee Pollen is made by honeybees, and is the food of the young bee. It is considered one of nature's most completely nourishing foods as it contains nearly all nutrients required by humans. Bee-gathered pollens are rich in proteins (approximately 40% protein), free amino acids, vitamins, including B-complex, and folic acid.

Mesquite

Mesquite has a sweet but nutty taste, and is used by many for flavoring in both food and drinks. Mesquite is high in protein (16%) and contains significant quantities of calcium, magnesium, potassium, iron and zinc. It's low in carbohydrate, low in fat and rich in the amino acid lysine.

Cacao Powder

Our cacao is of Creole variety, and from Peru. Creole variety is called "The Queen of Cacao" as it produces the highest grade beans. Creole cacao is an ancient variety, non-hybrid, produces "fine and flavor" beans, are the scarcest, most expensive and the most highly regarded for their complex flavour and aroma.

Camu Camu

One of the world's most abundant sources of vitamin C— as much as 60 times more C per serving than an orange. Camu Camu is traditionally made into a juice by people of the rainforest to support the immune system, and help maintain optimal health, especially under conditions of stress, which tend to deplete the immune system.

Carob

Ultimate cacao substitute, carob is a legume that grows in the Mediterranean regions where it was cultivated for its impressive nutritional value a long time ago. A healthy alternative for children, carob has less fat, more fiber and calcium than cacao.

Cat's Claw

Cats Claw is a South America vine commonly known as Una de Gato and is used traditionally used in Peruvian medicine to treat a variety of health complaints, particularly digestive complaints.

Mulberry

Delicious, fleshy, succulent mulberries are low in calories (just 43 calories per 100 g) and contain health promoting phyto nutrient compounds like polyphenol pigment antioxidants, minerals and vitamins that are essential for optimum health.

Neem

Neem powder is one of the most affective hair and skin treatment products. It is derived from pure and 100% pure and organic neem, which is also called Zaidivachta in botanical terms. Neem leaf powder is used in many industries like pharmaceutical industries and cosmetic industries.

Pea Protein

A delicious alternative source of protein for anyone but especially for vegetarians, vegans or those following restricted diets. Pea Protein is from Peas. It is made from the process of extraction and purification such that the protein is concentrated about 82% in this product.

Moringa

Moringa oleifera is a tree native in India. Its leaves are rich in protein, vitamin A, vitamin B, vitamin C and minerals. Indian people traditionally take it as a supplement. On the other hand, Moringa powder is an excellent addition to many recipes. You can add moringa powder into healthy shakes, sprinkle it in soups and on salads.

Psyllium Husk

Psyllium husk comes from India. Eatable part of the plant are seed shells, forming a wonderful mucous which can help regulate digestion. Psyllium husks contain a lot of insoluble fibres. In contact with water they swell and produce a substance similar to gelatine which has a positive effect on digestion. It is very welcome to those who have haemorrhoids since it softens the excrement.

MSM

MSM stands for Methyl-sulphyl-methane. It is found in various foods, and used by our body to make important enzymes, antibodies, glutathione and connective tissues. MSM is a sulphur supplement. It is an organic sulphur compound (a metabolite of dimethyl sulphoxide), and is a dietary source of sulphur.

Reishi

Reishi Mushroom is called Lingzhi in Chinese. It is a polypore mushroom, and mostly refers to Ganoderma lucidum specie. It has been used in traditional Chinese medicine for more than 2000 years.

Rhodiola Rosea

Rhodiola rosea is also known as Golden Root or Roseroot, and usually found in cold areas and mountains with high elevations. It is mainly the roots of this plant which are consumed by human beings; and there are a long history of human consumption of Rhodiola Rosea, for example, Russians have used this plant for centuries to cope with cold weather.

Rice Protein

Brown rice protein provides a convenient source of protein nutrients for vegetarians and others who follow restricted diets. Since brown rice protein powder is considered hypo-allergenic, it may also make an excellent choice for individuals with dairy, soy and/or gluten allergies.

Schizandra

Schizandra berries, sometimes spelled as schisandra, are the dried ripe fruit of Schizandra chinensis, a vine native to China. It has a long history of traditional use as a major tonic herb for the whole body.

Shatavari

Shatavari (scientific name: *Asparagus Racemosus*) is a species of asparagus native in Sri Lanka, India and the Himalayas. In Ayurveda, Shatavari has been described as a rasayana herb and has been used extensively as an adaptogen to increase the non-specific resistance of organisms against a variety of stresses.

Rosehip

The rosehip, or rose haw, is the fruit of the rose plant. Rose hips are particularly high in vitamin C content C, one of the richest plant sources. Rose hips also contain some vitamin A and B, essential fatty acids and antioxidant flavonoids.

Passion Fruit

Passion fruit is native to Brazil, Paraguay and northern Argentina. It is high in beta carotene, potassium, and dietary fibre. Passion fruit juice has high content of vitamin C, and good for people who have high blood pressure

Shiitake

The Shiitake is an edible mushroom native to China, Japan and many other East Asian countries. It has been used in both Chinese medicine and Chinese cuisine for a few thousand years because of its health-promoting characteristics.

SUPERFOODS

Wheatgrass

Humans have been consuming wheatgrass for over 5000 years, dating back to the Pharaohs of Egypt. It's well known for its detoxifying and cleansing properties. It contains chlorophyll, essential fatty acids, antioxidants, enzymes and energy-metabolising minerals. Our wheatgrass is organically grown and carefully dried, preserving all its nutrients.

Siberian Ginseng

Siberian Ginseng, or Eleuthero, is a wonderful tonic herb of the highest order. It has been used for centuries as a powerful adaptogen, combating the first signs of stress, fatigue and signs of adrenal weakness whilst sustaining long-term energy and wellbeing.

Spirulina

Spirulina is an all natural food source that is made up of a highly nutritious micro salt water plant that is more than 60% proteins and amino acids. It is a blue-green microscopic plant that has existed on our planet for 3.6 billion years and served as a source of nourishment to many civilizations.

Xylitol

Xylitol is an all natural sweetener that looks and tastes like sugar. Commercially it is extracted from renewable resources such as corn cobs, and also from less environmentally sustainable sources such as hardwood. Xylitol also occurs naturally in our bodies.

Tribulus Terrestris

This plant has been used since ancient times to promote vitality and virility. After being extensively studied in Eastern Europe, and subsequently used by Olympic athletes from that region during the 90s, Tribulus terrestris has surged in popularity worldwide.

NEW

MALIE

"Smiley kiddo"

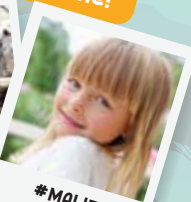

My name is Malie. I am five years old. I spend my days going to preschool and playing with my friends. I also have a puppy named Coco. She is one of my best friends. We like to lay on the sofa and watch cartoons together. I also like to spend time with my mummy. We cook together a lot. And oh boy, I like all the yummy food she makes. Recently, she came up with something really special. And it's healthy too, she says. Being a lucky little girl, I got the chance to help with her creations. She did the cooking and I did the tasting. So, there I was, sitting behind the table like a princess, trying out all those amazing flavours she was putting on the table. All I had to do is to pick the best ones. For me...and for you! And this is how the story of Malie was born.

Follow me!

#MALIE

Choco Drink & Calcium

Sometimes, after a long day of playing and learning new things – I just need to have some nice, warm cocoa. We created an organic rice drink with cacao and calcium. Sweetened only with coconut sugar, rich in magnesium and iron, this magic drink keeps my teeth healthy and my bones strong.

ORGANIC | VEGAN | NO REFINED SUGAR | WHOLESOME | EASY TO PREPARE

Porridge Super Fruity

Have you ever heard of mulberries? Mulberries are superfood; they have naturally sweet taste. We mixed them together with some goji berries and figs and this is how the Malie Super Fruity Porridge was created.

Porridge Banana

I am not a monkey – but I love bananas! :)

We all love everything with bananas in it and that means this porridge too. It tastes yummy! The Malie Bio Banana Porridge is perfect food for kids of all ages, and surely it makes deliciously healthy food for adults too.

Porridge Choco&Coconut

If I had to choose a perfect breakfast, there has to be chocolate in it. We created a chocolate flavoured porridge with a twist of coconut. The chocolate flavour comes from organic cacao acting as an antioxidant. Trust me, it tastes yummy!

Porridge Choco&Banana

It makes an excellent breakfast for me and you. It's easy to prepare with some hot water or any type of plant-based drink or milk. Oats are packed with slow releasing carbs that help stabilise blood sugar and they contain more dietary fibre than any other grain. We added powdered cocoa and bananas for an even better taste.
